# Import Solutions

## Smart Market Entry

Horizon manages the entry of goods into Brazil efficiently and in full compliance with legal and regulatory requirements, offering the right solution for your company's specific needs.

---

This model applies when the acquiring company uses its own funds to purchase the goods and pays the taxes required for customs clearance, then it resells the goods in the Brazilian market at a profit.

**Horizon** provides end-to-end management of the process under its name, ensuring direct delivery to the end customer and full tax compliance.

---

# Importation on Order

# Importation on behalf of HORIZON

---

This model applies when the acquiring company engages an importer to handle customs clearance using its own financial resources. **Horizon** provides dedicated operational and customs support, with a focus on cost optimization.

---
